

Parliament to Assemble in Early January Announces Premier King

CANADA-U.S. TRADE TREATY NEARLY READY

Prime Minister Outlines Business Confronting the Next Session at Ottawa

OTTAWA, Nov. 9.—Parliament will meet either the first or second week in January, Prime Minister Mackenzie King announced last night following the first cabinet council he has presided over in a month.

King said the new Canada-U.S. trade agreement has been ready to go to the government for some time, the Prime Minister said, but he was not yet sure what date it would be signed, although it will be "very soon."

Apparently very much refreshed by his month holiday in the West Indies, Mr. King had before him a number of matters after council, including the visit of the King of Queens next summer and appointments to foreign legations.

EARLY SESSION NOT NEEDED

When it became known the trade agreement would not be ready to present to Parliament in November, King said the government decided that little would be gained by having parliament meet before Christmas, the Prime Minister said.

"I think it will suit the convenience of members if we call parliament early in January," King said, the first of which would be the first of the session. The actual date can be decided later.

"I am sure, in the end, we will make as much progress by meeting early in the year as we could by waiting until after Christmas," King said.

WILL NOT KISS BUSINESS

"We will go ahead with business as fast as the House permits, but we cannot propose to rush through it," King said, "but we will have it done by the time we have it over before the end of the year."

"In any event we will not sit while the Republicans are here," King said, "but we will wait until they are in Canada because ministers and members will want to be in their own constituencies."

Ministers are to be appointed to the legations in France and Holland and one of the new dual legations of Holland and Belgium for which provision was made in the estimate at the last session of parliament.

Usurpation

ple allowance for meeting local expenditures.

From 1931 to March 31 this year the per capita grant yielded British Columbia only \$14,908,000-\$15,100,000 less than the federal cost for social services and unemployment relief.

"In addition, the minister said, British Columbia no longer has priority in the field of federal assistance."

The government of the Dominion, by the imposition of a national income tax, first invaded the provincial tax field, and then, by the federal income tax, invaded the provincial place, and taken the lion's share of the proceeds from the most lucrative field.

Because of this situation, the two are compelled to borrow from the Dominion to meet unemployment relief and pay for the cost of social borrowings," Mr. King concluded.

City power plant and the \$600,000 addition were inspected Tuesday by members of the City Club. Engineer William Dyer conducted the party on the inspection, which followed a regular luncheon at the Macdonald.

Quiet Meetings

Cooling Civic Election Drive

Jovial, good-natured audiences gathered Tuesday night at the Memorial Hall and Norwood school for the closing meetings of the municipal election campaign.

There was little saying at either meeting, although candidates had to withstand a steady barrage of questions at the conclusion of their speeches.

The Memorial Hall meeting drew the largest crowd of the campaign, more than 300 people at the meeting. The Memorial Hall meeting was held under the chairmanship of J. Perry Page, chair of the Edmonton grade.

At the Norwood school, Mayor William Aberhart informed the audience that he was at a conference held by the Calgary city council for further action, but he could not get to him.

MULLEN SAYS SUPPORT FOR CHEESE TRADE

Minister Estimates Alberta Production Will Be 2, 300,000 Pounds

The provincial agriculture department is "pleased to co-operate with the makers of Alberta cheese" in supporting the National Cheese Week campaign, according to Hon. D. B. Mullen, minister of agriculture, who spoke Tuesday evening in support of the Cheese Week Activities.

Mr. Mullen declared that it was estimated cheese production in Alberta this year would reach an all-

Saskatchewan Wheat Pool Favors Producers Controlling Marketing

LOVERS AWEIGH — By Betty Wallace

Continued From Page One
Palestine Report

LAST OF CHARACTER
Saskatchewan wheat producers are now in a position to make their own marketing decisions. The Saskatchewan Wheat Pool, which has been the main marketing agency for wheat in the province, is now being replaced by a new organization, the Saskatchewan Wheat Producers' Association, which will be formed by the producers themselves.

CHAPTER II
But even so, the producers are not yet in a position to make their own marketing decisions. The Saskatchewan Wheat Pool, which has been the main marketing agency for wheat in the province, is now being replaced by a new organization, the Saskatchewan Wheat Producers' Association, which will be formed by the producers themselves.

NEW STORY FOR HIM
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

She said indignantly, "For me I guess you don't want to be a wheat producer."
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

And just then a figure came out of the door.
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

He said, "I'm not a wheat producer."
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

She said, "I'm not a wheat producer."
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

He said, "I'm not a wheat producer."
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

She said, "I'm not a wheat producer."
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

He said, "I'm not a wheat producer."
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

She said, "I'm not a wheat producer."
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

"Lieutenant Hanley was just leaving," said Judy evenly.

And just then a figure came out of the door.
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

He said, "I'm not a wheat producer."
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

She said, "I'm not a wheat producer."
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

He said, "I'm not a wheat producer."
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

She said, "I'm not a wheat producer."
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

He said, "I'm not a wheat producer."
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

She said, "I'm not a wheat producer."
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

He said, "I'm not a wheat producer."
The new organization, the Saskatchewan Wheat Producers' Association, will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves. It will be a new organization, and it will be formed by the producers themselves.

THE GOVERNMENT
The government reserves the right to refer to the wheat producers as the Palestine Arabs when they regard as responsible for the campaign of assassination and violence. It is understood that this reservation is aimed chiefly at the third staff of Jerusalem, now in refuge in Syria.

THE PROBLEM
The problem of the wheat producers is a complex one. It involves the issue of marketing, the issue of production, and the issue of distribution. The wheat producers are now in a position to make their own marketing decisions.

SUBMITTED FOR APPROVAL
The wheat producers have submitted their proposals for approval. The proposals are aimed at increasing the production of wheat and improving the marketing of wheat.

PRICE PROBLEM DISCUSSED BY GRAIN BOARD

Dominion Government Is Held Responsible For Wheat Conditions

ST. CATHARIES, Nov. 8.—In view of the still unsolved problem of securing large world wheat supplies with consequent depressed prices in the Dominion, the Dominion Grain Board has decided to hold the Dominion Government responsible for the wheat conditions.

Both these proposals were contained in the board of directors' report, which declared that the board of directors had decided to hold the Dominion Government responsible for the wheat conditions.

Your Health—By Dr. Frank McCoy

Influenza is an acute, contagious disease which produces a catarrh of the mucous membrane of the nose, throat and lungs. It is also called "Flu," or "Grippe," and is most frequent between the ages of 10 and 40. Some cases are so mild that they are mistaken for a cold. The most characteristic signs of influenza is the suddenness with which the patient gets up in the morning with what he thinks is a cold and may try to get about his usual work, only to find himself unable to do so.

This disorder may start with a severe chill, which will be followed by a fever of average severity. The temperature will run around 100 degrees Fahrenheit. But in more severe cases it will go up to 103 or 104. Usually, aches and pains are present. The patient will feel tired and weak. The patient will feel tired and weak.

The patient will feel tired and weak. The patient will feel tired and weak. The patient will feel tired and weak. The patient will feel tired and weak. The patient will feel tired and weak.

Looking Them Over

By Jack Kelly

Soccer Rumbles
Clique Blamed
Horns an' Speed

LAST winter Edmonton started talking soccer and it hasn't been a conference team. In April we started talking a new deal in soccer and now we have it. In view of these facts it is not surprising to hear an audible rumble from the more far-seeing members of Edmonton's soccer fraternity at this time when bulls and jerseys have been stirred away for the winter.

Some clubs in our city are strong and wicked despite the fact that for several years we have had one of the most senior clubs in Canada. Then you get officials here who play the game in their own back yard, and the result is a complete breakdown of the game. The result is a complete breakdown of the game. The result is a complete breakdown of the game.

This attitude by the general body of soccer the game entrusted with developing and assisting the game in every way throughout the province, has caused the best soccer supporters in Edmonton to feel that they will no longer have anything to do with the game as long as the clique of malcontents remain in the A. F. A.

Appeals have been made to the referee and sportsmanship of the game. The result is a complete breakdown of the game. The result is a complete breakdown of the game. The result is a complete breakdown of the game.

Phantom Hoofbeats Drown Out Panther Growl

Great Pittsburgh Backfield Lacks Versatility And Deception

SOUTH BEND, Indiana, Nov. 9.—The roaring of the Pittsburgh Panther has subsided to a meek growl and once again the hoofbeats of the Phantom Four Hoosiers echo loudly across the United States gridiron, defying any odds to produce their equal. For a time Pitt's powerful backfield appeared ready to out-Notre Dame's legendary halfback, but along came Carnegie Tech, tripped the high-cared Panthers 20-10 and, echoing from the past, the hoofbeats again rose to a triumphant crescendo.

Crevelly, shoulderer, Layden and Miller—the greatest backfield in the annals of the college game—were the first to recognize and exploit the power of the Pittsburgh four. Pitt's powerful backfield appeared ready to out-Notre Dame's legendary halfback, but along came Carnegie Tech, tripped the high-cared Panthers 20-10 and, echoing from the past, the hoofbeats again rose to a triumphant crescendo.

Fordham heavy favorites to topple their opponents and break the famous "unbeaten streak" which extended through these consecutive years. Pitt used to throw passes, tried all the time plays with their own hands, but the Panthers, in the final quarter with a 7-0 lead, tried to break back on their high-powered running attack and with nine minutes left for play played through the running game and three successive touchdowns were, and emerged with a 14-0 victory.

BILLED HERE

E.A.C. To Meet Wesleys Saturday

Juniors Take Spotlight Again Meeting Starry Saskatoon Bunch—Trail Smokes Here Next Week

ALTHOUGH the Alberta Senior Hockey League will not open here until November 19 and the Junior League has still to be organized, plenty of intriguing hockey is on the program for Edmonton teams and fans in the meantime.

The E. A. C. Juniors will hold the spotlight here Saturday night when they will be hosts to the Saskatoon Wesleys for an exhibition game at the Arena. Wesleys promise some stiff competition. They broken even with the Winnipeg Monarchs last week in a two-game series, losing one and winning one.

Clare Loughlin's Eskimos will go on the road this week, making a tour in Saskatoon for two weekend games with the Quakers. Last night the team began to take on their work—the first time they have really shown form to emerge as a top contender. A team like to be playing smart hockey before Loughlin knows himself to drop any enthusiastic words. However, he was "right" on his club last night when they finished with a 4-0 win and half in the arena.
